International Research Conference on Local Knowledge 2024**
University of Batangas, Lipa City | Hybrid
February 1-2, 2024

"Digital Technology & Local Knowledge: Empowering Education in the Age of Artificial Intelligence"

In today's world, digital technology and artificial intelligence have redefined the way we learn, teach, and interact with knowledge. Local knowledge, deeply rooted in culture and tradition, is a valuable asset in this era of technological advancement. This conference aims to explore the harmonious integration of these two domains, emphasizing the potential of local wisdom and digital tools to empower education. We are excited to invite scholars, educators, and experts from around the world to participate in this thought-provoking conference, where we will explore the dynamic intersection of digital technology, local knowledge, and the transformative potential of artificial intelligence in education. This conference serves as a platform to share insights, exchange ideas, and contribute to the future of education in an increasingly digital and AI-driven world.

The conference welcomes abstract submissions that delve into new ideas, current practices, debates, and controversies regarding the integration of local knowledge in education, with a particular focus on the use of ICT. The following are the suggested topic strands, but not restricted to these:

1. Policies in ICT and Local Knowledge
2. Faculty Development & Re-training on ICT adoption to reuse, preserve and share local knowledge
3. ICT Pedagogical Approaches in Teaching Local Knowledge
4. ICT Tools, Platforms and Operations in Local Knowledge Preservation
5. ICT-based Assessment in teaching Local Knowledge
6. Classroom Organization and Management in Teaching Local Knowledge using ICT
7. Computer Ethics and Local Knowledge
8. Human-Computer Interaction in Local Knowledge
9. ICT-based methods in Local Knowledge Research
